HOW TO EDIT

Right click on the logo and select ungroup to separate graphic and text

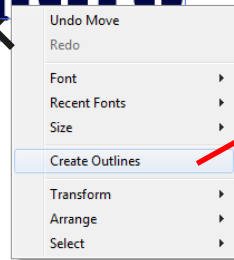

Select part that you want to change it's color, and click your favorite color on Swatches menu

Select Type tool and then select the text to change the name

Mister
Alessandro

If you want the text becomes permanent (uneditable), right click on it and select Create Outlines.

Hold click and make rectangle around the logo to select all areas at one time

And then right click on it and select Group. Now all areas become one group again.
